JAZ Drag Race Fuel Cells

All JAZ Fuel Cells are rotationally molded in seamless cross-linked polyethylene that exceeds SFI 28.1 specs and are accepted by most sanctioning organizations. Every JAZ fuel cell uses mil spec aviation safety foam (unless noted, "without foam"). This foam is far superior and has a 10 times longer service life than that of other non fuel approved foams on the market.

Product images may differ from actual product appearance.

Drag Race Horizontal Fuel Cell

- Seamless rotomolded cross-linked polyethylene outer shell
 - Flush mount aircraft style cap assembly
 - 2" deep sump in rear for better fuel pickup
 - Two -08 AN fast flow outlet fittings and one -06 AN vent fitting
 - 360° mounting strap recesses
- Pictured :** #547-250-012-01.

Drag Race Vertical

- Seamless rotomolded cross-linked polyethylene outer shell
 - Flush mount aircraft style cap assembly
 - Tapered sump in rear for better fuel pickup
 - Two -08 AN fast flow outlet fittings and one -06 AN vent fitting
 - 360° mounting strap recesses
- Pictured:** #547-250-004-01.

Note: Although all JAZ Products fuel cells exceed SFI spec 28.1, only fuel cells labeled "This Fuel Cell Carries SFI Certification" are actually certified. Only the fuel cells that are specifically designed for classes that require SFI certification receive a serial number and SFI label.
